

Eagle Lake Regional Airport

The Eagle Lake Regional Airport has 23 hangars available for individual aircraft storage. Current services include aircraft fuel which is available 24/7, a full-time maintenance facility, flight training, flight physicals, tie-downs and assistance through our Automated Weather Observation System (AWOS). Contact City Hall for hangar availability.

The FBO offers AVGAS 100LL and JET A fuel at competitive prices. Self-service is available 24 hours a day.

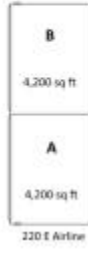

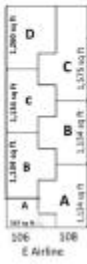

In 2020, the City received grant funds from Texas Department of transportation for significant runway improvements. Additionally, the TXDOT also awarded funding for nine new hangars.
